**BMP Description:**

University Building Standards Division 31 requires construction projects to be designed in compliance with the current MPCA Construction Stormwater Permit requirements. Part of the design process is the design engineer using Appendix K of the University Building Standards. Appendix K lists the major requirements of the MPCA Construction Stormwater Permit and requires the design engineer to state where they are covered in the design documents.

Standard Operation Procedure EM-4.02-002 Site Plan Review for Construction Activities that Require a UMN Grading Permit details the process for the review and approval of Appendix K.

This is a system-wide BMP.

**Measurable Goals:**

Review of Construction SWPPPs via Appendix K, number of approved annually

**Timeline/Implementation Schedule:**

Review of Construction SWPPPs, ongoing

Update University Building Standards Division 31 and Appendix K as required to maintain compliance with the current MPCA Construction Stormwater Permit requirements, within 12 months of reissued MPCA Construction Stormwater Permit

**Specific Components and Notes:**

Standard Operating Procedure EM-4.02-002 Site Plan Review for Construction Activities that Require a UMN Grading Permit, updating done by the University Civil Engineers

**Responsible Party for this BMP:**

- **Name:** Catherine Abene, P.E.  
- **Department:** Principal Civil Engineer, Energy Management  
- **E-mail:** abene@umn.edu
